TECHNOLOGY CAN KEEP YOUR BUSINESS SAFE DURING COVID-19 PANDEMIC?

POLICIES AND PRACTICES THAT KEEP YOUR BUSINESS GOING

Using **leading edge software** alongside the latest in **drone and camera technology** Iprosurv can provide **visual intelligence in inaccessible areas quickly and cost effectively**, with **limited number of people on site**. This means that **you limit your staff exposure to potential COVID-19 risks**, without jeopardizing the quality of your service.

Iprosurv's UK-wide network of skilled and experienced drone pilots deliver bespoke, quality inspection **services in line with the Government's 3-Tier travel restrictions**.

A hands-off approach is essential. We have adopted a contactless approach enabling drone pilots to operate in isolation with minimal contact with the associated site & clients.

STEP 1

Book a survey with us

STEP 2

One of our professionals H&S compliant pilots will conduct the survey

STEP 3

The footage will be uploaded within hours, straight to the portal

As a service orientated enterprise, **Iprosurv ensures all inspections are delivered to the highest standard complying with necessary regulations ensuring delivery of high quality of services and practices**, providing complete insurance coverage and peace of mind.
